

A Stanley Group Company
Engineering, Environmental and Construction Services - Worldwide

STANLEY CONSULTANTS' FACT SHEET

- Provides program management, planning, engineering, environmental, and construction services worldwide.
- Established in Muscatine, Iowa, as Central States Engineering in 1913. The firm was renamed Young and Stanley, Inc., in 1932; Stanley Engineering Company in 1938; and Stanley Consultants, Inc., in 1966.
- Serves industrial, institutional, government, commercial, and utility clients in all 50 states and international clients in 102 countries, representing more than 25,000 engagements.
- Corporate headquarters located in Muscatine, Iowa, with multiple offices located across the U.S. and in select international locations.
- Registered as a professional multidisciplinary consulting firm with most major governmental and regulatory agencies in the U.S., and with similar agencies in the countries in which business is conducted.
- Comprised of over 1,100 qualified experienced professional, technical, and support staff members representing the major disciplines in the fields of engineering, architecture, environmental sciences, planning, management, and economics.
- A 100 percent member-owned company.
- Approximately 350 members carry professional registrations in 50 states and several foreign countries.
- Employs members who belong to 100 professional and technical societies and associations.
- Ranked by *CE News* magazine in 2002 as the country's Best Civil Engineering Firm to Work For in recognition of the company's growth and stability and its efforts to provide satisfying growth opportunities for its members, a relaxed and professional work environment, open-door management, and cooperative team projects.
- Named by AARP in 2005 as the nation's Best Employer for Workers Over 50.
- In 2011, *Engineering News-Record (ENR)* magazine ranked Stanley Consultants as No. 57 in the top 500 design firms in the U.S. and No. 106 in the top 200 international design firms.
